FOR KULKA LEADERSHIP

We released the first underwriting pilot.

Claude is locked as the company standard for Kulka, and ChatGPT stays for quick day-to-day work. The read-only Claude path into SharePoint for the ProEst square-footage gap is **blocked by IT**, not a build failure; Matt meets Gina on Tue Sep 9 to clear it. Your team is in Las Vegas Sep 7 to 13; if we cannot meet, work continues on Kulka Vision. The three things we need from your team are at the bottom.

WHERE THE BUILD STANDS

WHAT WE COUNTED

1	58	9	1
UNDERWRITING PILOT RELEASED	CODE CHANGES SHIPPED	TICKETS CLOSED	MEETING HELD

DONE THIS WEEK

- [x] **Locked Claude as the company standard on Monday.** ChatGPT stays for quick day-to-day work across the team.

- [x] **Chose a read-only Claude path into SharePoint for the square-footage gap.** IT instructions went out the same day. IT has since blocked the path.
- [x] **Received the Cost Export from Rob on Monday.**
- [x] **Released the first ground-up multifamily underwriting pilot for test.** You can create, save, edit, and calculate a case start to finish.
- [x] **Emailed Underwriting First Test Build to Devin and Rob on Wednesday.** Devin and Rob can run their first pass from that email.

COMING UP

SEP 7 TO 13	Kulka team in **Las Vegas**. If there is no working session, build continues on Kulka Vision.
TUE SEP 9	Matt meets **Gina** to unblock IT on the Claude-SharePoint path.
WEEK OF SEP 14	Once IT clears, the five SharePoint confirms and the cost path resume.

WE NEED THREE THINGS FROM YOUR TEAM

DEVIN **Create the Claude team under a work email and invite Devin, Jesse, Liam, Rob, and Matthew.** Email Matt at matt@bldglabs.ai before Tue Sep 9. The company standard cannot ship without the team account.

ROB **Confirm the Cost Export is the multifamily Autodesk Cost actuals set, or send the correct one.** Email Matt at matt@bldglabs.ai before Tue Sep 9. We cannot price against the wrong export.

DEVIN **Tell Matt which ProEst jobs are clean enough to use.** Email the list to Matt at matt@bldglabs.ai before Tue Sep 9. Still open from last week; those jobs are the history we price from.

HOW WE WORK

Takeoff stays human and you own the code. No AI output reaches your team until I have checked it and hit send.
